

Instant Wireless™ Series

Wireless CompactFlash Card

Connect Your Pocket PC to a Wireless Network

Wireless Access from Your Pocket PC

Instant Wireless™ Wireless CompactFlash Card
Model Number: WCF12

Experience the same speed and ease of wireless networking on your PDA. The Wireless CompactFlash Card installs directly into your Pocket PC using a CompactFlash Type I or Type II slot. The user-friendly software makes it a snap to set up, and you're ready to share data, printers, or high-speed Internet access over your existing wireless network at speeds up to 11Mbps.

Use the Wireless CompactFlash Card to connect your PDA to the wireless network at the office, at home, or in any of the growing number of public wireless "hotspots" venues springing up in coffee shops, airport lounges, hotels, and convention centers.

With the Wireless CompactFlash Card you'll get more of what you own a PDA for—information at your fingertips with total mobility.
